**Mission Statement**

AGEM, the German Society for Medical Anthropology **Arbeitsgemeinschaft Ethnomedizin** was founded 1970 in Hamburg, Germany. It is classified as a non-profit organization of scientists, practitioners, and institutions.

In its founding principles from 1970, the AGEM established its mission to advance the critical inquiry of an "interdisciplinary field uniting anthropology and medicine" and to foster the scholarly collaboration and research at the nexus of medicine and culture, including in the related fields of the history of medicine, human biology, pharmacology, botany in the natural sciences, and in medical, social and cultural anthropology, human ecology, sociology, psychology, and folklore studies in the social sciences.

As outlined in the bylaws, the AGEM is committed to the research and dissemination of academic and practice-based research examining the intertwined relationships of medicine and culture through 1) the publication of a corresponding peer-reviewed journal, 2) regular professional meetings, and 3) the collection of relevant written materials that serve the purpose to increase scholarly exchange and debate.
